Contents of Volume 13

No. 1

D.F. Smee, M.L. Bartlett, H.A. Alaghamandan, M.M. Jones, G.R. Revankar and R.K. Robins (U.S.A.)
4,6-Dibenzamidopyrazolo[3,4-d]pyrimidine is a highly selective inhibitor of cytomegalovirus adsorption to cells 1

K. Nagata, H. Sakagami, H. Harada, M. Nonoyama, A. Ishihama and K. Konno (Japan)
Inhibition of influenza virus infection by pine cone antitumor sustances 11

J. Sühnel (G.R.D.)
Evaluation of synergism or antigonism for the combined action of antiviral agents 23

A.K. Field, A.V. Tuomari, B. McGeever-Rubin, B.J. Terry, K.E. Mazina, M.L. Haffey, M.E. Hagen, J.M. Clark, A. Braitman, W.A. Slusarchyk, M.G. Young and R. Zahler (U.S.A.)
(±)-(1α,2β,3α)-9-[2,3-bis(hydroxymethyl)-cyclobutyl]guanine [(±)-BHCG or SQ 33054]: a potent and selective inhibitor of herpesviruses 41

No. 2

M.A. Horisberger, R. Schrenk, S. Staiger, A.R. Leyvraz and S. Martinod (Switzerland, U.S.A.)
Induction of Mx-related protein in cat peripheral blood mononuclear cells after administration of recombinant human interferon hybrid 53

Y. Ninomiya, N. Shimma and H. Ishitsuka (Japan)
Comparative studies on the antirhinovirus activity and the mode of action of the rhinovirus capsid binding agents, chalcone amides 61

N.O. Eghafona and S.O. Emejuaiwe (Nigeria)
(Avid) rosette-forming cells as evidence for cellular immunity following measles virus vaccination in monkeys: correlation with the presence of haemagglutination inhibitory antibodies 95

M. Subramanian, T. Kovacs, K. Lesiak, P.F. Torrence and J. Lenard (U.S.A.)
Inhibition of the RNA polymerase of vesicular stomatitis virus ppp5'A2'p5'A and related compounds 81

D.F. Smee, H.A. Alaghamandan, A. Jin, B.S. Sharma and W.B. Jolley (U.S.A.)
Roles of interferon and natural killer cells in the antiviral activity of 7-thia-8-oxoguanosine against Semliki Forest virus infections in mice 91

No. 3

P.D. Reuman, D.I. Bernstein, S.P. Keely, J.R. Sherwood, E.C. Young and G.M. Schiff (U.S.A.)
Influenza-specific ELISA IgA and IgG predict severity of influenza disease in subjects prescreened with hemagglutination inhibition 103

P.J. Aduma, S.V. Gupta and E. De Clercq (Belgium)
Antiherpes virus activity and effect on deoxyribonucleoside triphosphate pools of (E)-5-(2-bromovinly)-2'-deoxycytidine in combination with deaminase inhibitors 111

J.W. Mulder, F. de Wolf, J. Goudsmit, P.A. Cload, R.A. Coutinho, A.P. Fiddian, P.T. Schellekens, J. van der Noordaa and J.M.A. Lange (The Netherlands, U.K.)
Long-term zidovudine treatment of asymptomatic HIV-1-infected subjects 127

F.J. Malinski, S.E. Hasty, M.A. Ussery and J.M. Dalrymple (U.S.A.)
Prophylactic ribavirin treatment of dengue type 1 infection in rhesus monkeys 139

No. 4

K.G. Draper, M. Ceruzzi, M.E. Kmetz and L.J. Sturzenbecker (U.S.A.)
Complementary oligonucleotide sequence inhibits both Vmw65 gene expression and replication of herpes simplex virus 151

K.F. Soike, T.-C. Chou, J.J. Fox, K.A. Watanabe and C.A. Gloff (U.S.A.)
Inhibition of Simian varicella virus infection of monkeys by 1-(20deoxy-2-fluoro-1-β-D-arabinofuranosyl)-5-ethyluracil (FEAU) and synergistic effects of combination with human recombinant interferon-β 165

J. Lazdins, E. Alteri, K. Woods Cook, C. Burgin and J.D. Gangemi (Switzerland, U.S.A.)
Use of human monocytes in the evaluation of antiviral drugs: quantitation of HSV-1 cytopatic effects 175

R.J.Y. Ho, R.L. Burke and T.C. Merigan (U.S.A.)
Physical and biological characterization of antigen presenting liposome formulations: relative efficacy for the treatment of recurrent genital HSV-2 in guinea pigs 187

F. Superti, L. Seganti, N. Orsi, N. Desideri, M.L. Stein, A. Tinari, M.L. Marziano and G. Donelli (Italy)
In vitro effect of synthetic flavanoids on astrovirus infection (Short Communication) 201

No. 5

A. Merta, I. Votruba, I. Rosenberg, M. Otmar, H. Hřebabecký, R. Bernaerts, and A. Holý (Czechoslovakia, Belgium)
Inhibition of herpes simplex virus DNA polymerase by diphosphates of acyclic phosphonylmethoxyalkyl nucleotide analogues 209

G. De Fazio, A.P.C. Alba, M. Vicente and E. De Clercq (Brazil, Belgium)
Antiviral activity of S-adenosylhomocysteine hydrolase inhibitors against plant viruses 219

L.R. Stanberry, C.J. Harrison, F.J. Bravo, F. Childs, A.L. Reece and D.I. Bernstein (U.S.A.)
Recurrent genital herpes in the guinea pig augmented by ultraviolet irradiation: effects of treatment with acyclovir 227

S.B. Li, Z.H. Yang, J.S. Feng, C.K.Y. Fong, H.L. Lucia and G.D. Hsiung (U.S.A.)
Activity of (S)-1-(3-hydroxy-2-phosphonylmethoxypropyl)cytosine against guinea pig cytomegalovirus infection in cultured cells and in guinea pigs 237

J. Černý, I. Votruba, V. Vonka, I. Rosenberg, M. Otmar and A. Holý (Czechoslovakia)
Phosphonylmethyl ethers of acyclic nucleoside analogues: inhibitors of HSV-1 induced ribonucleotide reductase 253

R.F. Schinazi, C.K. Chu, J.R. Babu, B.J. Oswald, V. Saalmann, D.L. Cannon, B.F.H. Eriksson and M. Nasr (U.S.A.)
Anthraquinones as a new class of antiviral agents against human immunodeficiency virus (Short Communication) 265

No. 6

E. Matthes, P. Langen, H. Brachwitz, H.C. Schröder, A. Maidhof, B.E. Weiler, K. Renneisen and W.E.G. Müller (G.D.R., F.R.G.)
Alteration of DNA topoisomerase II activity during infection of H9 cells by human immunodeficiency virus type 1 in vitro: a target for potential therapeutic agents 273

I. Votruba, M. Tráníček, I. Rosenberg, M. Otmar, A. Merta, H. Hřbabecký and A. Holý (Czechoslovakia)
Inhibition of avian myeloblastosis virus reverse transcriptase by diphosphates of acyclic phosphonylmethyl nucleotide analogues 287

A. Holý, I. Votruba, A. Merta, J. Černý, J. Veselý, J. Vlach, K. Šedivá, I. Rosenberg, M. Otmar, H. Hřebabecký, M. Trávnícek, V. Vonka, R. Snoeck and E. De Clercq (Czechoslovakia, Belgium)
Acyclic nucleotide analogues: synthesis, antiviral activity and inhibitory effects on some cellular and virus-encoded enzymes in vitro 295

J. Tang, J.M. Colacino, S.H. Larsen and W. Spitzer (U.S.A.)
Virucidal activity of hypericin against enveloped and non-enveloped DNA and RNA viruses 313

S. Ikeda, C. Nishimura, M. Matsuura, J.Y. Homma, M. Kiso and A. Hasegawa (Japan)
Effect of acyl substituents of synthetic lipid A-subunit analogues on their immunomodulating antiviral activity (Short Communication) 327
